WORK EXPERIENCE

Jr. Web Developer | Sky Productivity Pvt. Ltd. (1 Year)

- Developed high-performance, responsive UIs using JavaScript and Bootstrap for complex web layouts.
- Optimized front-end performance and ensured cross-browser compatibility.
- Collaborated with back-end teams to integrate RESTful APIs and dynamic data using AJAX.
- Maintained clean and scalable code using Git for version control.

Web Developer Intern | Credapp Software Pvt. Ltd. (6 Months)

- Designed and developed user-friendly interfaces using HTML, CSS, and jQuery.
- Converted Figma designs into pixel-perfect, responsive web pages.

PROJECTS

Cyber Punk   cyber-punk-project.netlify.app

- A dynamic web application inspired by a futuristic cyberpunk theme, developed using HTML, CSS, JavaScript, MySQL, and PHP.
- Designed a visually immersive user interface with custom animations and responsive layouts.
- Built back-end functionality to manage user data and dynamic content using PHP and MySQL.

Charge Up   charge-up.netlify.app

- Optimized images, minified CSS/JS files, and a streamlined codebase guarantee quick page load times.
- Smooth animations and interactive elements powered by JavaScript enhance user engagement.
- A clean and intuitive interface that focuses on usability, helping visitors find information quickly and effortlessly.

Enclave   enclave-ruby.vercel.app

- A unique custom cursor effect that follows users' movements, adding a playful and interactive element to the browsing experience.
- Implemented a sticky, minimalist navigation bar and utilized a clean, responsive layout to ensure seamless viewing across all screen sizes.

Portfolio Website   vatsalkansagara.vercel.app

- Designed an immersive UI with a bespoke cursor animation that effortlessly follows user motion, integrated with elegant transitions and device-friendly layouts to ensure fluid interaction.

Discuss App   discusswithfriend.infinityfreeapp.com

- Developed a PHP-MySQL based Discussion App where users can post questions and share answers in real time.
- Built a full authentication system with secure Login and Signup using HTML, CSS, JS, and PHP.
- Implemented user-role features allowing users to manage profiles, ask questions, and submit detailed answers.
- Designed a clean responsive UI using Bootstrap combined with custom CSS and JavaScript for smooth interactions.
